

Recycle Forest Hill!

Recycling containers are now located on City Hall property, near the Community Center, 6800 Forest Hill Drive. These are free drop-off bins.

One container is strictly for paper and cardboard. The second should only be used for empty aluminum cans, plastic containers, water bottles and milk containers.

We ask that you thoroughly rinse all recyclables before placing them in the receptacles. If you have any questions about recycling, please call IESI, the City's trash collection service. They are available during normal business hours at (817) 222-2221.
